The Special Meeting for the residents of Ferry Point to discuss the 2024 Road Construction project was called to order by Chairperson Johnson at 5:00 pm in the Watab Township Hall.

Kevin Kruger, Township Engineer, presented the plan to reclaim Ferry Point Road. The road will be 27' feet wide from the entrance to the trail crossing near Bend in the River Park. The road will be striped with a 3' shoulder on one side.

Bids will be awarded at the regular monthly meeting in March. Work is planned to begin early spring, dependent upon contractor schedules and weather.

Mailboxes will be replaced with swing-aways free of charge. Residents who choose to retain their current mailboxes will be responsible for maintenance of their mailboxes; the Township will not replace or repair mailboxes that are damaged by the snowplow. Contractor will remove and replace mailboxes.

Residents were advised to fold up irrigation hoses and heads back at least 10 feet until work is finished. The road will be staked a week before work begins to allow time to move irrigation components.

Residents will be updated via the Township Facebook page and by email. Please contact the clerk with your email address if you wish to receive email updates.

Meeting adjourned at 5:39.
